

Tribal Preparedness and Response Training

Who is LSU NCBRT/ACE?

Louisiana State University's National Center for Biomedical Research and Training/Academy of Counter-Terrorist Education (LSU NCBRT/ACE) is a nationally recognized center for emergency preparedness and response training located at LSU's flagship campus in Baton Rouge, Louisiana. The Center has provided mobile training to emergency response communities at no direct cost to participants since 1998.

NCBRT/ACE has expertise in research, development and delivery of training in the areas of specialized law enforcement operations, biological incident response, food and agricultural safety and campus/school emergency preparedness. NCBRT/ACE provides customized trainings for civilian community members, public safety personnel and emergency responders. Our courses teach participants how to better protect themselves, their communities and their infrastructure from a variety of potential threats. NCBRT/ACE is proud of the successful relationship we have had with tribal communities in recent years and strives to provide high-quality trainings to Indian Country.

What we offer:

NCBRT/ACE is unique from other emergency training organizations because we offer all classes at no direct cost to you or your organizations. All of our course deliveries are mobile, meaning that we bring all the instructors and materials to you, no matter where you are located. Depending on the nature of the training, courses can be conducted in locations including but not limited to:

- Tribal complex/departmental offices
- Tribal community/cultural centers
- Hotels/Casinos
- Hospitals
- K-12 schools or college campuses
- Training facilities

"This information is vital and important, and NCBRT/ACE's training has already had a positive impact on the staff at my school district. I hope to bring more school districts, the New Mexico Indian Health Services and other organizations in my area into more trainings in the future."

– Shaka Rucker,
Central Consolidated School District Safety Coordinator, Shiprock, N.M.
