

TRIBAL PUBLIC HEALTH PREPAREDNESS AND RESILIENCE

AN EPIDEMIOLOGY SPECIAL PROJECT

A Tribally centered epidemiological approach to public health preparedness and resilience with the primary goal of strengthening the resilience of Tribal Nations in the USET region through public health strategies focused on the mitigation, prevention, and preparation phases of the disaster management cycle.

You're invited to the Tribal Public Health Preparedness and Resilience (PHPR) Task Force!

Join us to build relationships between Tribal Nations in the USET region and the USET Epidemiology team! The focus will be on building capacity in your priority areas and learning best practices from each other.

Coming Soon!

An epidemiological assessment to inform public health interventions and advance capacity, understanding, and awareness of public health preparedness and resilience.

Who Should Join?

- Tribal Leaders and Tribal Council Members
- Health Directors, Physicians, Medical Staff, Behavioral Health Professionals, Public Health Nurses
- Emergency Response/Coordination Personnel, Homeland Security Personnel
- Emergency Services Personnel, Fire Responders, Public Safety Personnel
- Epidemiologists, Data Specialists
- Risk Management Personnel, Community Planners
- Environmental Health Staff, Public Works Personnel
- Anyone interested in Public Health Preparedness and Resilience
